CLIMAR and its excellence

Climar Lighting has been manufacturing and supplying reliable, efficient, high-quality lighting **since 1977**.

The company is proud to boast an obsessive eye for detail and quality of finishing, combined with a pragmatic touch for simplicity of installation. **Climar Lighting** has always believed and sought to improve with a view to different lighting perceptions.

The world of **Climar Lighting** is about history, ambiance and moments that last forever through lighting projects created with wisdom and passion for details. It is culture, it is the solution that combines human vision with particular attention to the emerging requirements of the future. The company's goal is to provide the most refined and sophisticated high-quality solutions for Hospitality Ambiances.

The conviction in its expertise

In addition to the range of lighting solutions presented in the **STANDARD PRODUCTS** chapter of this catalogue, **Climar Lighting** also accept requests on a daily basis that challenge its own essence, in the search for new concepts. Those challenges lead to bespoke lighting products developed for a wide variety of spaces. Some examples of bespoke projects can be found on the **TAILOR MADE EXAMPLES** chapter of this catalogue.

Climar Lighting is dedicated to the execution of ground-breaking lighting projects based on architectural design requirements. A creation process is essentially interdisciplinary and complex, involving different professionals: **Climar Lighting team** and the **client**. Each project is crafted with authenticity and unique touch, in which each piece is a challenging and fascinating venture.

Climar commits itself to the impossible, with a conviction in its expertise.

BYBEAU'S DIMPLE

DESIGN BY BYBEAU

Finding the right light.

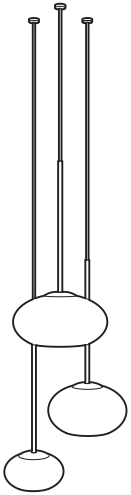

DIMPLE was designed by Beau McClellan and manufactured by Climar Lighting for ByBeau. It is the natural progression, the application and adaptation of what we had learnt to fit other situations. Inspiration-creation-inspiration. Necessity may well be the mother of invention - but sometimes invention can prove to have maternal instincts of her own.

DIMPLE BY BYBEAU

Total freedom of imagination.

A distillation of the spirit and inspiration of our previous works, DIMPLE has been refined to allow for total freedom of imagination. As sensitive to the personality of a space or client as it is to the light of its surroundings, it offers a flexible, modular chandelier system to suit interiors of all sizes - starting from a single pendant through to flowing cascades of individual drops. Allowing a personal exploration of the space, aesthetic and feel of an environment.

Designed for stage, perfect for home.

This ByBeau product offers a truly exclusive experience with complete freedom to customise your design, **every drop** of the chandelier can be configured with a separate **RGBW LED** chip, providing either a single warm white or combination of natural whites where desired. Each of these drops can then be individually controlled via **DMX** to provide a fully personalised, reactive display. It's designed to be flexible, working either with its own control system or with an other already installed.

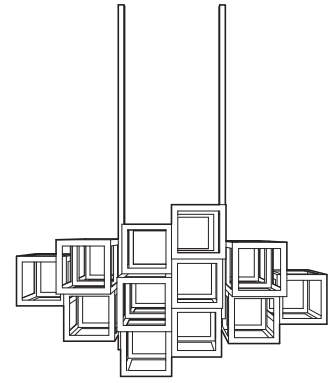

DIMPLE BY BYBEAU

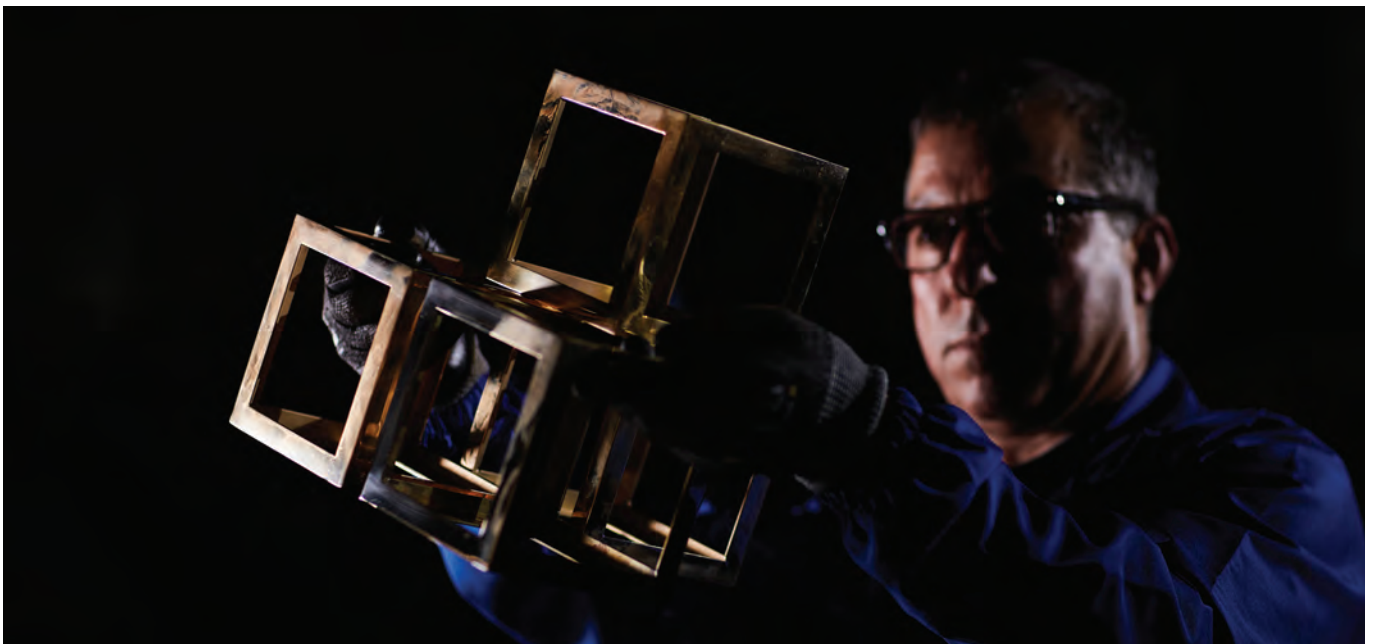

Mesmerizing lights, suspended at the sky.

When switched on, the unique, pioneering two-way **mirror-coated finish** - available in chrome - unveils an extra interior **hand-blown glass** ball. This playful approach to the interweaving of art and light captures the whimsy of imagination; transitioning throughout the day, providing a magical twist to the character and narrative of an environment.

Impressive talent.

By bringing together the best know-how from different areas, each project is adapted and manufactured by hand, keeping in mind the clients' needs and wishes. Exclusivity is a reflection of the professionalism that is practiced. The creation process focuses on the employees' efforts, who, in every work, combine the best of each one, obtaining refined solutions in terms of aesthetics, with a refined functional sense.

CUBO

DESIGN BY **BEAU MCCLELLAN** AND **BYBEAU** TEAM

Creative vision.

In a classic Portuguese-style environment, light illuminates a path full of stories with a unique authenticity. Offering glimpses of this world, with harmonious touches and details of modern luxury, the concept was conceived by the creative, bold and talented designer Beau McClellan and his team at ByBeau Studio.

Elegance in the making.

The design of this lamp is based on cubic geometric forms that bring together new lighting concepts. The duality between the **matt and high-gloss finishes** result in an elaborate composition that embodies a deconstruction of the modules, frozen in time. Through the nobility of brass, the end result presents a perfect symbiosis between light and shadow.

SATURNO

Whenever
is required a
distinct design.

This is the ideal time to fall in love with simple lines and bronze hues. The piece brings out a touch of desire in the space, asserting itself as a stately piece with distinct uniqueness. Ideal for prominent spaces, restaurants, bars or hotel lobbies.

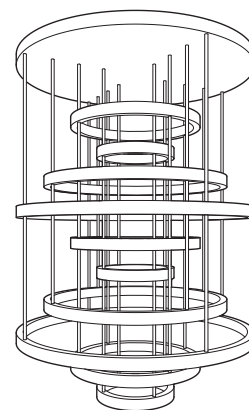

PROJECT

Hotel EPIC Sana
Luanda - Angola

DESIGN

Climar Lighting

Surface mounted luminaire composed of **10 rings**, with measures between **Ø600mm** and **Ø1800mm**, in **aluminium** painted in **bronze**, with **60W** total power. Chandelier overall dimensions **Ø1800mm** with **2570mm** height.

KOBBER-02

Orbiting copper rings of light.

Imposing chandelier with three magnificent rings and lighting flowing from small light points. All the copper rings are linked together to form a unique shape, that can be transformed by slightly rotating each ring. The varnished finish gives this copper chandelier a true sense of luxury. This bespoke chandelier can be customised to fit your interior design project.

PROJECT

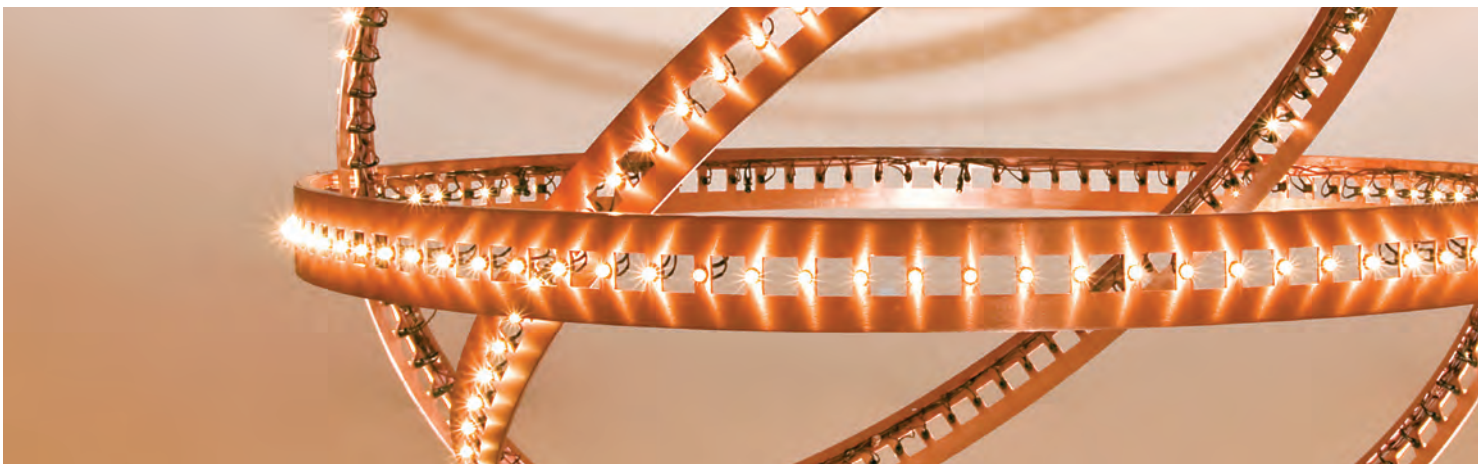

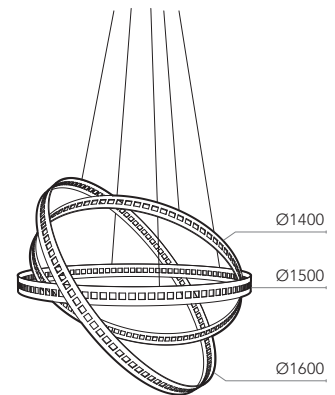

Adega Vale D'Algarés
Vila Chã de Ourique - Portugal

KOBBER-03

Suspended luminaire composed of **3 horizontal rings**, **Ø1000mm**, **Ø1500mm** and **Ø2000mm** measures, in **varnished copper**, with **280 G9 LED lamps** of **40W** maximum power. Chandelier total height is **2000mm**.

Imposing rings of light.

KOBBER circular chandelier is composed by three rings with lighting flowing from small light points. With a varnished copper finishing, this bespoke chandelier can be customised to fit your interior design project. A true example of high-quality craftsmanship, this classic chandelier features three parallel rings and an extremely balanced design.

Ideal to use as a modern dining room lighting fixture or as entrance lighting.

POP-UP

It pops into your eyes.

Chandelier combining design with the aged brass finish to generate the lighting that accentuates, differentiates and enhances the character of any room. Characterized by a handmade structure with brass tubes carefully combined to form a geometric design. With 84 tubes arranged in a rhythmic pattern and an extremely balanced design, this classic lighting design gets even more beautiful when you see the light flowing from its tubes. This luxurious chandelier is ideal for refined living rooms or grand halls.

PROJECT

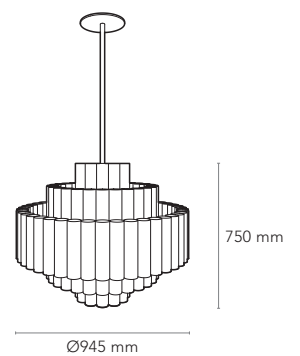

L'Oréal Paris
Lisboa - Portugal

DESIGN

Climar Lighting

MOQ - Minimum Order Quantity
3 units

Suspended luminaire composed of **84 tubes**, measuring **Ø63mm**, in aged **brushed brass**, with **13 E27 LED lamps** of **60W** maximum power.

AMELIE

Balance and Elegance.

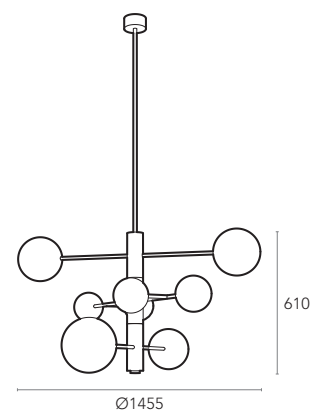

AMELIE suspension lamp is a very functional lighting that will add beauty and a classical touch to your interior design. Handmade in aluminium, the body is covered by a gold finish with opal glass globes providing soft diffused light. Ideal to use as a dining room lighting fixture or as an entrance lighting, AMELIE has a special appeal that won't go unnoticed.

**DESIGN**

Climar Lighting

MOQ - Minimum Order Quantity
4 units

Suspended luminaire composed of **3 horizontal arms**, in **aluminium** painted in **golden colour**. With **opal glass** spherical elements with measures of **Ø140mm**, and **Ø200mm**, illuminated with **8 G9 LED lamps** of **40W** maximum power. Chandelier total height of **1610mm**.

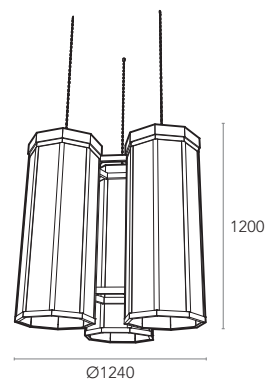

DESIGN

Climar Lighting

MOQ - Minimum Order Quantity
3 units

Suspended luminaire composed of **3 grouped modules**, in **aluminium** painted in **golden colour**. With **opal and crystal PMMA** diffuser, illuminated with **LED technology**, with temperatures of **2700K, 3000K or 4000K** and **105W (3x35W)** total power.

DYNASTY

Decorative Trilogy.

Imposing chandelier with three suspended elements in an exuberant combination.

The aluminium structure covered by a gold-plated finish gives the chandelier a true sense of luxury. Since it is a bespoke lighting design, every feature can be altered to meet your expectations and requests. DYNASTY is the perfect lighting fixture for the entrance of a luxurious hotel or framed in a wide space.

LUSH

All majestic places deserve lux.

Bespoke chandelier with handmade structure in stainless steel and an intricate design pattern, covered by a chrome or gold-plated finish. The silk lampshade is fitted with an opal diffuser for homogeneous light emission and comfortable environments. It's possible to customize this suspension lighting in any shape, dimension or finish, as well as in the texture and colour of the lampshade, to give each environment a reassuring and unique identity. LUSH is the perfect customisable chandelier for a luxurious lobby at a five-star hotel.

**PROJECT**

Hotel Conrad
Quinta do Lago - Portugal

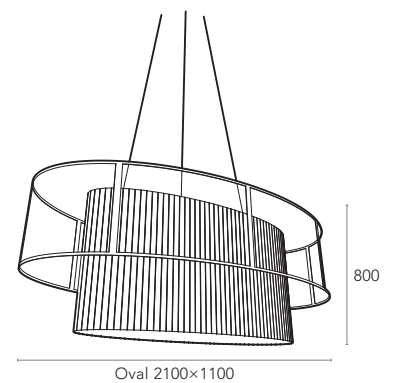

DESIGN

Climar Lighting

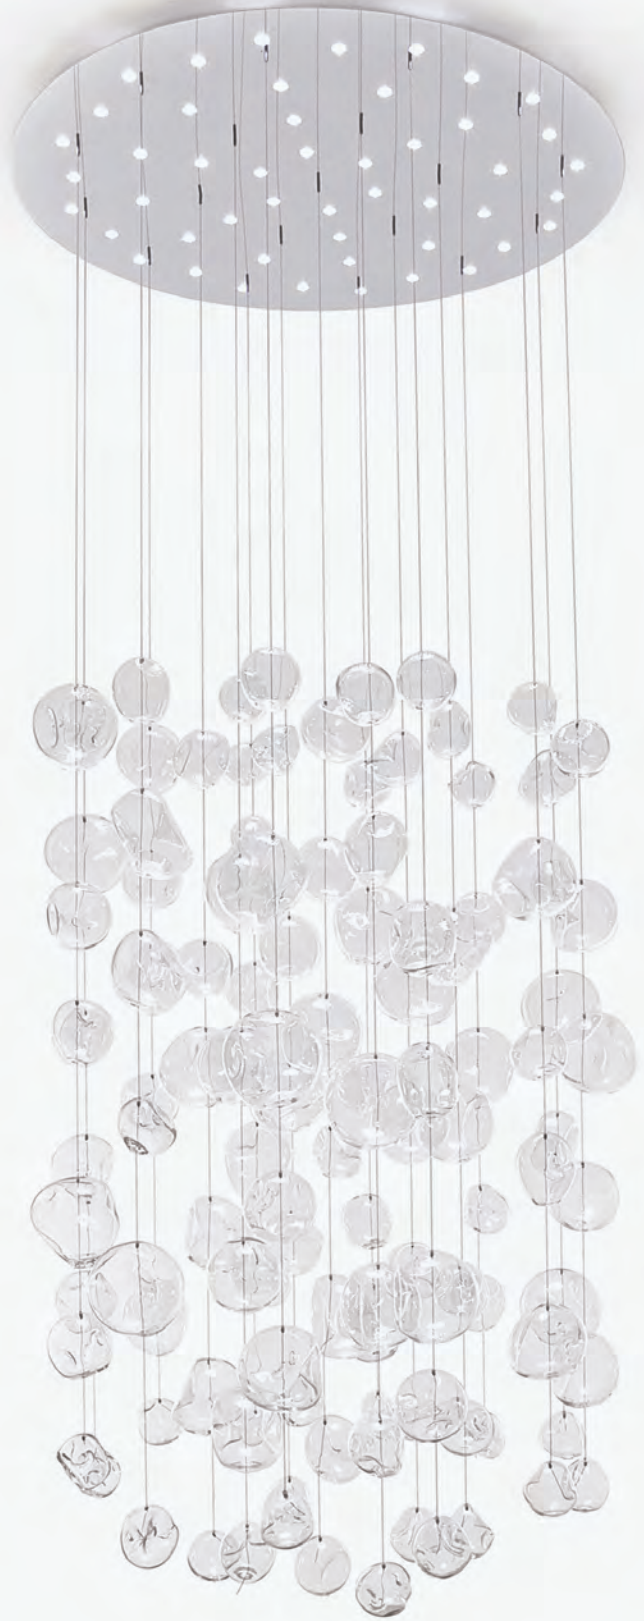

MOQ - Minimum Order Quantity

4 units

Suspended luminaire composed of an **oval chrome exterior structure**, with an exclusive pattern, and a **white pongé silk lampshade** centre, illuminated with **8 E27 LED lamps** of **60W** maximum power.

GOCCIA

Glass in its most organic form.

Extremely elegant and exuberant chandelier. With a stainless steel plate as support, this piece consists of randomly suspended glass balls, all different as a result of the manual glass blowing process employed. All the brightness of the piece is struck in the impact of the LED light in the glass balls, creating beautiful visual games of light. A true example of high-quality craftsmanship, GOCCIA is a bespoke lighting design where every feature can be altered to meet your expectations and requests. GOCCIA has the potential to become the centrepiece in large spaces with high ceilings.

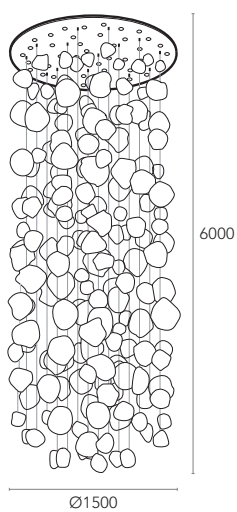

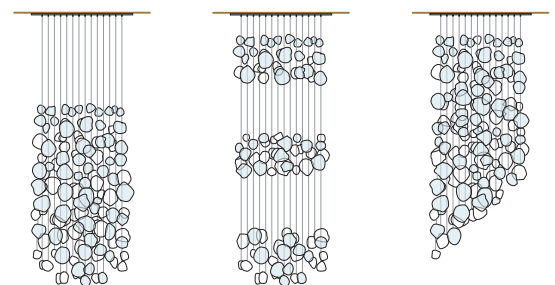

**PROJECT**

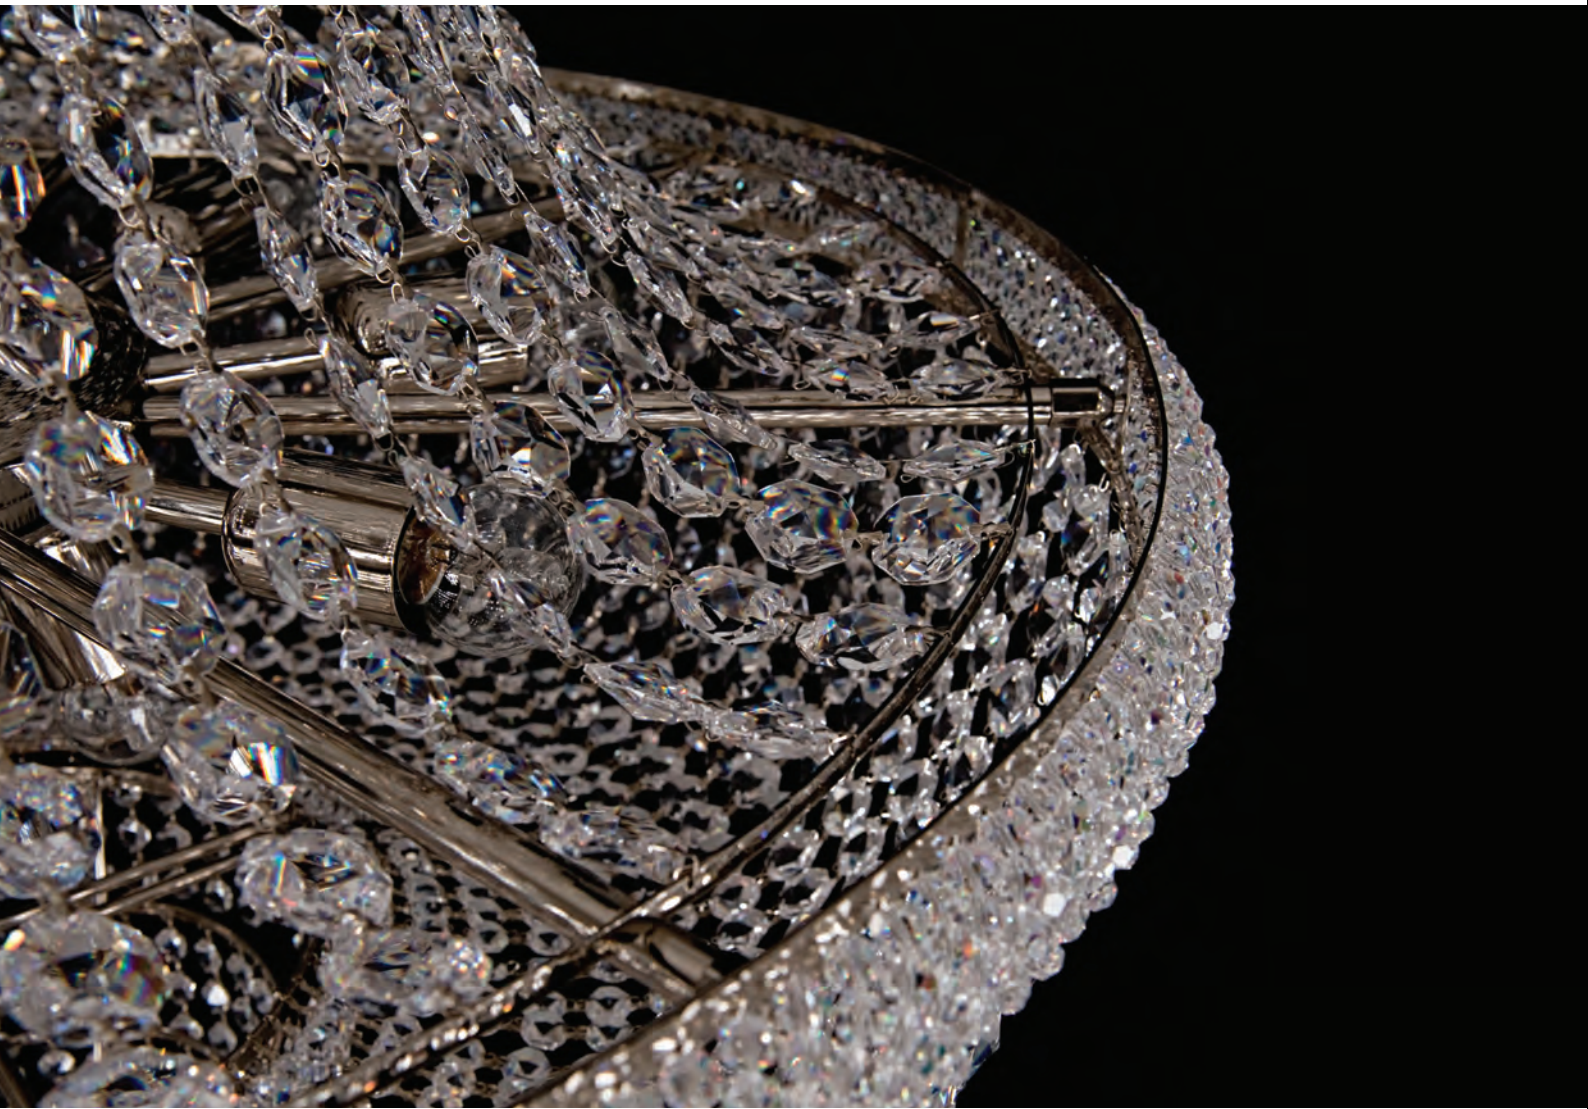

Isabel Castro Cabeleireiros
Aveiro - Portugal

DESIGN

Climar Lighting

Surface mounted luminaire composed of a **chrome structure**, illuminated with **72 LED technology spots** with a **5000K** colour temperature and **144W** total power. Suspended to the structure are steel cables with hand-blown **crystal glass balls** with three organic dimensions ($\text{Ø}140$, $\text{Ø}200$, $\text{Ø}250\text{mm}$) that produce several light reflections.

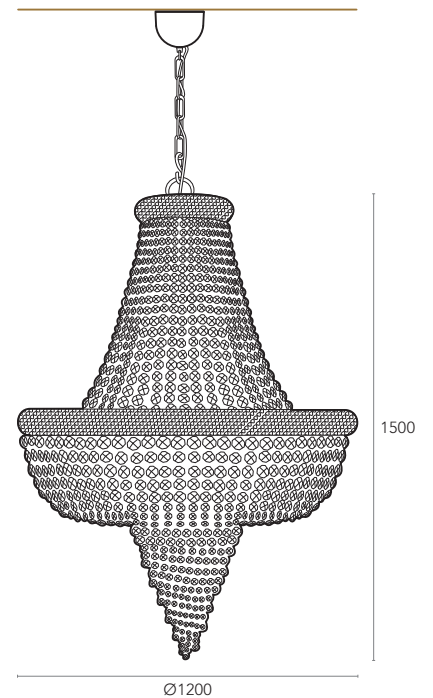

**ARRANGEMENTS**

DESIGN

Climar Lighting

Suspended luminaire composed of a **chrome-plated brass structure**, illuminated with **24 E27 LED lamps of 60W** maximum power. Attached to the structure are **crystal glass** chains that give shape to the chandelier and produce distinct light reflections.

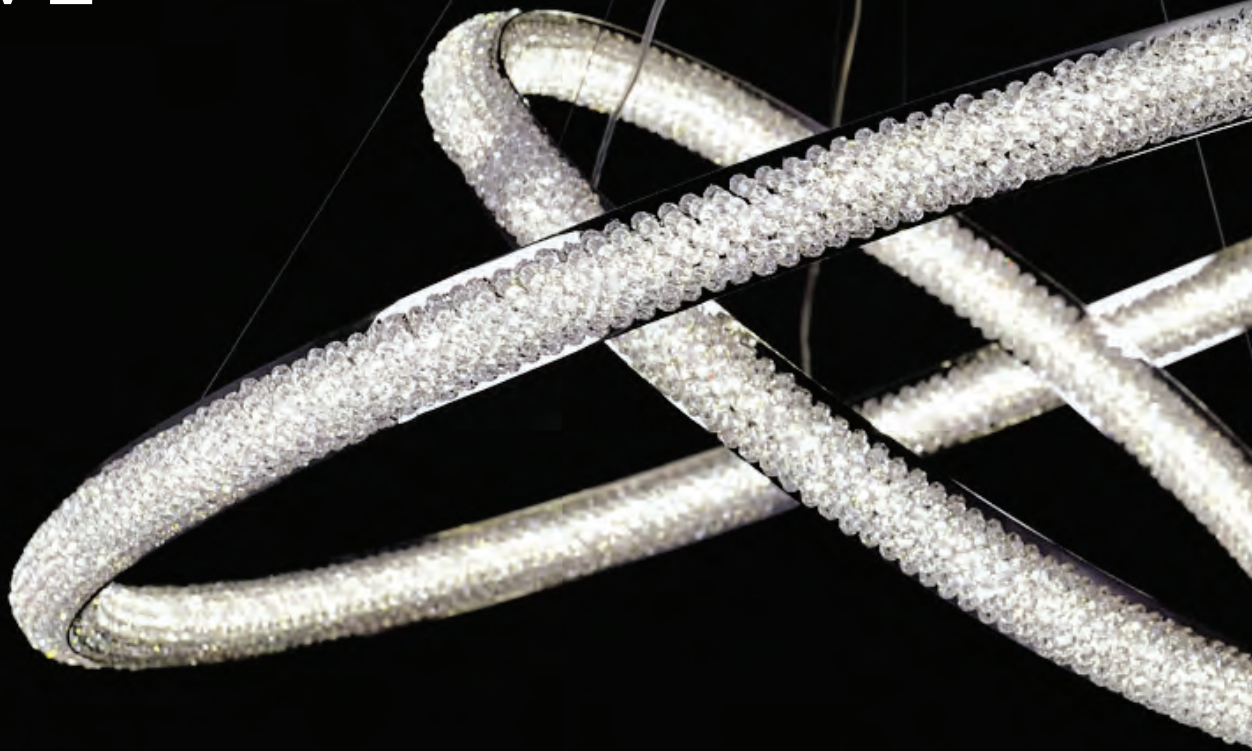

DREAM

Elegance and exuberance.

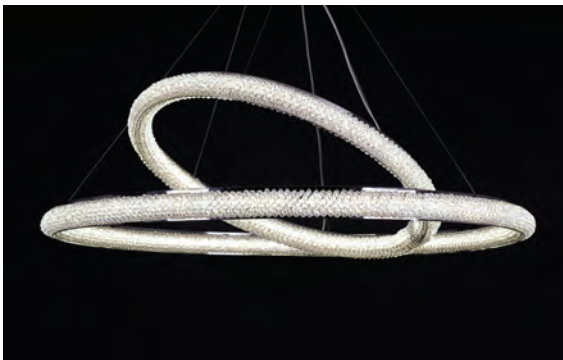

DREAM chandelier is a striking blend of vintage elegance and bold silhouettes. The chrome plated brass frame is draped in cascades of shimmering precision cut glass crystals of different sizes and shapes which reflect the lights beautifully for a glamorous elegance. Chrome ceiling cup with high strength chain suspension that can be adjusted for different ceiling heights. A true example of high-quality craftsmanship, this classic chandelier will make a magnificent centre piece to any large living room or hallway.

CRISTAL LOVE

Combining elegance, simplicity and technology.

CRISTAL LOVE creates a design statement for contemporary and traditional interiors. This pendant lamp is characterized by the perfect fusion of materials as varied as crystals mounted on a chromed plated brass structure and LED lighting. The elegance and exuberance of the luminaire arise from the randomly suspended light rings in unobtrusive steel cables and the ability to be used either individually or in combination of several rings. CRISTAL LOVE is an exquisite handmade pendant lamp suited for the most luxurious settings.

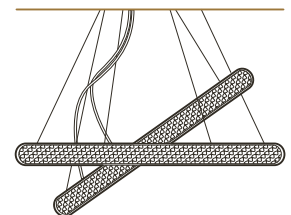

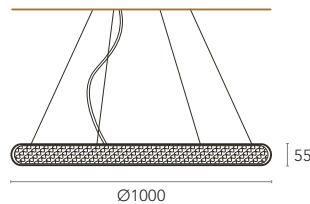

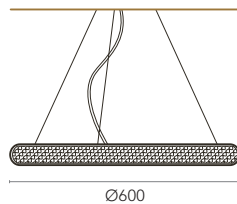

DESIGN

Climar Lighting

MOQ - Minimum Order Quantity
4 units

Suspended luminaire composed of a **chrome-plated brass ring**, illuminated with **LED technology** of **4000K** or **5000K** colour temperatures and **52W** ($\varnothing 600\text{mm}$) or **92W** ($\varnothing 1000\text{mm}$) total power. Attached to the ring are **crystal glass** chains.

QUEEN

An origami of light.

Irregular hexagonally shaped lamp, marked by asymmetrical sharp edges. With a design inspired by origami – the Japanese art of paper folding – this striking multi-faceted pendant lamp emits light at fascinating angles from its many surfaces. Bicoloured finish lamp shade with matt white interior, enhancing the lighting design with a perfect mix of form and function. The homogeneous direct and indirect light distribution will make this unique lighting design suitable to be used in a modern living room design or as a modern dining room lighting.

PROJECT

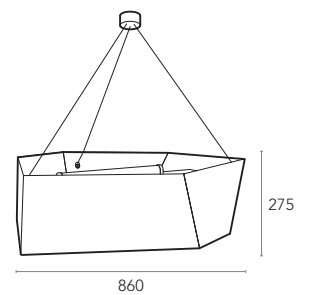

Academia de Ginástica de
Guimarães - Portugal

DESIGN

Climar Lighting

MOQ - Minimum Order Quantity
4 units

Suspended luminaire composed of a **hexagonal structure**, in **aluminium** painted in **black** and **white**, and the centre in **opal PC**, illuminated with **LED technology** of colour temperature **4000K** and **28W** total power.

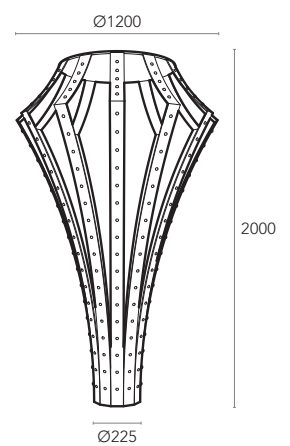

DESIGN
Climar Lighting

MOQ - Minimum Order Quantity
3 units

Surface mounted luminaire composed of a **chrome structure**, where are fixed **10 arms** that shape the chandelier, illuminated with **276** points of **LED technology** with colour temperatures **3000K, 4000K or 5000K** and **276W** total power.

DIAMOND

**Shiny like
a diamond.**

Sculptural ceiling lamp with very unique details that will certainly capture the attention.

This memorable lamp features a chromed finish that combines perfectly with the small LED light points for a true sense of luxury. The stainless steel structure is entirely shaped and assembled by hand. This lighting fixture is the perfect choice for a modern entrance as well as a statement lighting design in a hospitality project.

SOLARIS

Exquisite piece, a fairy tale chandelier.

Like something from a fairy tale or from the bottom of the ocean here is SOLARIS. With its unique shape, this exquisite chandelier is entirely made of hand blown glass, a true example of high-quality craftsmanship. It is a memorable lighting fixture, with very unique details that make it the luxurious bespoke design piece that it is. SOLARIS chandelier will certainly capture the attention of your guests.

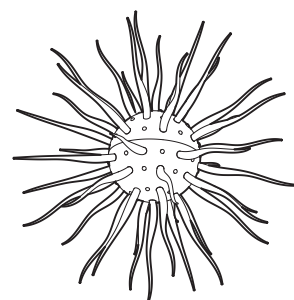

DESIGN

Climar Lighting

MOQ - Minimum Order Quantity
4 units

Suspended luminaire composed of an **aluminium** base structure and **41 arms** with **coloured glass** finishing, which give the chandelier a sun shape, illuminated with **40 G9 LED lamps** of **40W** maximum power.

Ø1400

PROJECT

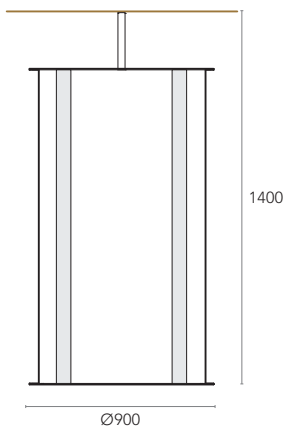

Forum Barreiro
Lisboa - Portugal

DESIGN

Climar Lighting

MOQ - Minimum Order Quantity
6 units

Suspended luminaire composed of an **aluminium** structure painted in **black**. With **opal PC** diffuser, illuminated with **LED technology**, with colour temperature **4000K** and **142W** total power.

CYLIX

Simple design with a lot of character.

CYLIX was designed to flood the room with subtle light and cleverly combines understated glamour with stunning design. Voluminous pendant lamp characterized by a handmade structure fitted with curved translucent panels which create exquisite light effects, further enhancing its shape. The varnished standard finish gives the lamp a true sense of luxury, however the finishes can be customised with any other metal or colour to fit your project. CYLIX is the perfect lighting for a luxurious lobby at a five-star hotel, but it also looks amazing in a grand dining hall.

ANAHORY

DESIGN BY JOSÉ AMARAL ANAHORY

Curvy organic, natural forms.

With delicate and curved forms, this unique lighting design was created to be a strong statement piece that cannot go unnoticed wherever it's placed. It is characterized by a stainless steel structure, entirely shaped and assembled by hand, wrapped in a special opaque Lycra. Sizes and colours can be customised upon request to fit your interior design concept. With an extremely balanced design, these sculptural lamps get even more beautiful with the ambient light being casted in all directions. ANAHORY will definitely make a statement in a classic and luxurious hospitality project.

PROJECT

WALL

MUSE

Silk touches, smooth ambiance.

In pendant and wall mounted versions, MUSE is known for its simplicity and refinement. The smooth silk lampshade lends an elegant and sophisticated touch to the lamp, while the bottom diffuser provides the perfect lighting to the whole surrounding area. In addition to the wide range of standard colours available, MUSE can be customised with any other colour for a more personalised and welcoming atmosphere. These modern, timeless design lamps will add a contemporary style to any interior design project.

FLEX

FLEX

The effective simplicity, as usual.

Series of wall mounted lamps able to create intimate and cosy environments. FLEX wall lamp is a geometric versatile piece, which can be used in almost any room. The lightness and resistance of the lampshade makes it remarkably long-lasting, completely concealing the wall base structure. It is available in three sizes with lampshade in a careful selection of standard fabrics and colours. Both these features can be customised upon request for a more personalised and welcoming atmosphere. Ideal solution for a variety of home and hotel decor styles.

STONE

DESIGN BY ALBINO MIRANDA

Design configurations only limited by imagination.

This lighting design celebrates the inexplicable and inherent beauty of river rocks – seemingly simple, the complexity of their form and how they interact are the result of thousands of years of sculpting by nature – STONE series captivates imagination while providing a warm and inviting tone to any room. Always in combination of large and small sizes, resulting in unique design configurations further enhanced by a carefully engineered LED board designed specifically for this model. STONE is available in four sizes, two wall clearances and several standard colours that can be customised according to your needs and requests.

LEAF

DESIGN BY ALBINO MIRANDA

Walls are surfaces of creativity.

LEAF wall mounted luminaire arises as a new idea for the lighting and decoration of interior spaces, based on an expressive design inspired by nature. This lighting design was born from the desire to create a delightful luminaire while achieving excellent diffusion and a soft ambient light. With a strong decorative character whether with the light on or off, LEAF compositions are distinctive in any room. It is available in three sizes for absolute creative freedom, with standard finish in white that can be customised to suit your interior design project.

POZI

POZI

Modernism running along the wall.

The POZI is the unique combination of a wall mounted lamp and pendant lamp! It's a beautiful lamp that runs along the wall and stretches its lampshade into the room through an elegant curve and a suspended cable, creating the perfect mood while spreading a soft diffused light. This original light fixture enables you to complete your interior lighting design, giving a stylish, high-quality finish to your home, restaurant or hotel.

CHESS

The game is on the wall, waiting to be played.

Wall modular lighting system with the ability to be arranged in various configurations, creating distinct and unique designs. It effectively illuminates space whilst bringing light to a new art form. CHESS can be used as a single light source or in groups of several modules for a dramatic effect. This wall modular lighting system uses LED technology and is available in units equipped with high density foam blocks. The ability to "play" with the position of each foam block allows for periodic arrangements and creation of personalised looks.

WAVE

WAVE

Tides of artistic creation.

A new concept for the lighting and decoration of interior spaces, allowing countless composition possibilities based on a clean and simple design. WAVE blends light functionality with an opportunity for artistic creation, an invitation for interior designers to dress walls. This wall modular lighting system uses LED technology and is available in modules, creating stunning light effects when several units are grouped together.

ROCHÉ

DESIGN BY ALBINO MIRANDA

Interior ambience takes on a life of its own.

A large dome shaped suspension available in different colours to create a truly impressive lamp. With the latest in contemporary styling, ROCHÉ pendant features an oversized dome shade, which serves as a dynamic focal point to establish a room's overall look and feel. The ambitious combination of colours creates a truly impressive image while its form creates the illusion that the entire inner surface of the sphere radiates light. With a standard range of finishing colours and cord styles, which can be customised to fit your decor needs, ROCHÉ makes a statement in any space.

FLOWIN

FLOWIN

DESIGN BY ALBINO MIRANDA

Imposing sculptural shapes.

Feel the true statement of luxury with this impressive pendant lamp, suited for the most exquisite rooms. Its composite fibreglass shade is mounted on a polished brass structure and emits a filtered light which creates beautiful atmospheres and shadows. With a high level of craftsmanship, this unique lighting design is entirely shaped and assembled by hand. FLOWIN will truly shine in a classic dining or living room design or you can even place it in the lobby of a hotel.

COCO

DESIGN BY ALBINO MIRANDA

Delicate elegance but strong light expression.

COCO pendant lamp gets rid of everything to keep only the essential, with colour taking centre stage. The interior ambience takes on a life of its own with these simple clean shapes and colour contrasts enhanced by LED light sources. When using several lamps to make a composition, the visual effect is just mesmerising. The bicoloured fibreglass body is combined with an unobtrusive suspension of single cable system for a true floating effect. Both these features can be customised to include other finishing colours and different suspension heights. COCO is suitable for integration into any contemporary environment, creating relaxed and warm atmospheres in hotels, restaurants and indoor walkthrough areas.

GRANDI

DESIGN BY MARCO SOUSA SANTOS

Practical simplicity.

An unrivalled example of minimalistic design, GRANDI pendant lamp features clean lines that are a perfect addition to any contemporary room. Pendant lamp composed of an aluminium structure and a polypropylene lampshade available in five versions with different sizes and shapes. The black polypropylene version is white on the inside for a higher reflection coefficient.

TABRIGA

TABRIGA

Evoked warm and soft atmospheres.

An exercise in contrasts, the TABRIGA pendant fuses the classic and the modern, the maritime and the industrial with simple yet up-to-date shapes. The matt black base combined with a clear glass shade provides a balanced design and wonderful light effects. The set hangs from a high strength chain suspension. Both these features can be customised to include other finishing colours and different suspension heights. TABRIGA is a pendant lamp with clean lines and graceful proportions, enabling comprehensive lighting design for the living and office environment.

RAY

RAY

Contemporary design and clear lines.

This airy pendant lamp is a classic. Its lampshade is handmade in wood by highly skilled craftsmen and is combined with an unobtrusive suspension that can be customised to allow different suspension heights. The wood provides a soft luminosity for atmosphere and appeal, while the delicate shadows it creates are both beautiful and surprising. A magnificent suspension, sophisticated and very functional, that is equally suited to contract and domestic settings.

VOID

VOID

Turn any space into a unique location.

VOID looks like a sketch drawn in the air, showing an almost transparent design that adds an avant-garde touch to rooms. Its wire structure filters the light, creating a particular lighting effect in the environment. VOID can be hung individually or as a composition for a unique visual effect. Collection of pendant lamps made of shaped and powder coated steel wire. These stylish lamps are available in three shapes featuring a matt black standard finish, which can be customised upon request to fit your interior design concept.

GARLAND

GARLAND

DESIGN BY CARLOS CASTANHEIRA

Floating light shapes.

A unique lighting design, boasting a high level of craftsmanship, light, technology and shape. GARLAND geometric shape and symmetrical balance will bring a cosy feeling of warmth and harmony into any interior design project. The piece's soft aura complements the pool of light that it casts below and the clean, simple style of its design. It is suspended by a triple cable system that can be adjusted for different ceiling heights. The homogeneous light distribution will make this unique lighting design suitable to be used in any modern style decor in residential and public environments.

SPELL

A new take on a classic.

SPELL pendant lamp combines the iconic design with contemporary interior trends. Characterised by clean geometric lines, SPELL expresses its strong personality with an unusual collection of colour combinations which can be customised in multiple other finishes. Due to the light source prominence, we recommend the use of LED filament bulbs which match perfectly with the lamp style and accentuate its character.

EDGY

EDGY

Urban and minimalistic lifestyle decor.

The EDGY pendant lamp is a recreation of the type of lamp used for generations in public areas, workshops and private homes. Featuring a solid and industrial look that perfectly suits contemporary interior design concepts, it is available in several colour alternatives, which can be customised in multiple other finishes. Its lacquered metal lampshade disperses the light in a subtle but spectacular way and will look great when lit with a warm bulb for a softer and inviting illumination. A sophisticated addition to any interior.

CONE

Light pared down to its essential elements.

CONE is an elegant pendant light that retains the essence of a traditional pendant light fitting while still being wholly contemporary. Featuring a minimalist design that perfectly suits trendy interior design concepts, it is available in several colour alternatives, which can be customised in multiple other finishes. Due to the light source prominence, we recommend the use of rustic style LED bulbs that perfectly match the look of the lamp and accentuate its nostalgic character.

TORCH

TORCH

Rustic elegance in style and finish.

TORCH circular chandelier is a simple lighting design with a lot of character. It's styled with an imposing ring accented with candelabra sockets to give the fixture a medieval vibe. The TORCH chandelier features a matt black standard finish which can be customised upon request to fit your interior design concept. This chandelier is ideal for bringing outstanding illumination to a dining room table, formal sitting area or any other space that needs to be enhanced with a captivating lighting piece.

MEET

Classic personality for welcoming atmospheres.

Pendant lamp featuring a voluminous lampshade in close dialogue with an upper structure to inject personality into a space. The lampshade guarantees max use of the light source, while offering upper and lower light distribution. It is finished with a bottom diffuser providing cosy lighting and remarkably perfect finish. In addition to the range of standard colours available, it can be customised by request to include different fabrics and other colours to fit your interior design concept. This voluminous pendant lamp is ideal for the home and hotel environment.

ECO

ECO

Perfect balance of the traditional.

Harmonious pendant lamp series easily recognizable by a smooth silk lampshade, seductively complemented by a slender tube structure. The lampshade classic appeal lends an elegant and sophisticated touch to the lamp, while the bottom diffuser provides the perfect lighting to the whole surrounding area. In addition to the standard colours and metallic finishes available, both these features can be customised for a more personalised and welcoming atmosphere. A timeless aesthetic with remarkably perfect finish, suitable to be used in a modern living room design or as a modern dining room lighting.

SNUPY

DESIGN BY ALBINO MIRANDA

Elegance that defies imagination.

Combining elegance, simplicity and LED technology, this outstanding floor standing lamp stimulates the imagination in any special corner of your home, creating a warm and subtle atmosphere. Available in three standard glossy finishes – red, black or white – that can be customised with any other colour to give each environment a reassuring and unique identity. With delicate and curved forms, this stunning lamp will bring a new life to your home decor.

SUNSET

SUNSET

See-through lighting.

Floor standing lamp made of shaped and powder coated steel wire, showing an almost transparent design that adds an avant-garde touch to rooms. The metal structure filters the light by creating a particular lighting effect in the environment, while its wire nature means it doesn't block views across the area.

In addition to the standard black finish, SUNSET can be customised with any other colour to fit your interior design concept. It's a floor standing lamp that easily integrates into any modern style decor in residential and office environments.

FLEXILED

Fully directional light.

A LED task light, ironically named to reflect its energy efficiency and functional design. Suitable as bedside table reading light or desk mounted for use in libraries and offices, FLEXILED can also be mounted on the bed head for use as task light in hotel rooms. The luminaire's flexible arm allows adjustment freedom to suit any lighting requirement. Fixes via recessing spike finished with a decorative cover plate. With a wide range of versions and variety of finishes available, FLEXILED is an elegant lighting solution for the home or hospitality sector.

SOFTLED RO

Glare-free, adjustable light.

Deceptively simple in design, the SOFTLED performs the three key functions of reach, adjustability and glare-free illumination. Combining a small and unobtrusive base with a pivoting head that allows to direct the light precisely where it is needed. Light unit with integrated lens optics for a low-glare pinpoint reading light which can be rotated and swivelled, enabling the lighting effect to be easily adjusted. SOFTLED is an elegant lighting solution for the home or hospitality sector.

STAR

STAR

Design simplicity and perfect duality.

The STAR elegantly combines ambient lighting with the directional functionality of an LED reading light. Suitable as bedside table reading light which can be mounted on either side of the bed providing a soft, soothing and uniform glow, while its flexible arm enables full adjustability of the beam to illuminate the task at hand. The finishes can be customised with any metal or RAL colour of your choosing, adding a more personalised and welcoming atmosphere to your interior design. STAR is an elegant lighting solution for the home or hospitality sector.

TAP

Discrete light segments.

Subtle straightforward design, the TAP bedside reading light maintains an architectural purity, but enables the full functionality of a directional LED reading light. Suitable as bedside lamp which can be mounted on either side of the bed, TAP combines a small and unobtrusive base with an adjustable arm, enabling the lighting effect to be easily adjusted. Light unit with integrated lens optics for a low-glare pinpoint reading light.

The finishes can be customised with any metal or RAL colour of your choosing, adding a more personalised and welcoming atmosphere to your interior design. TAP is an elegant lighting solution essential at any hospitality project.

RECESSED

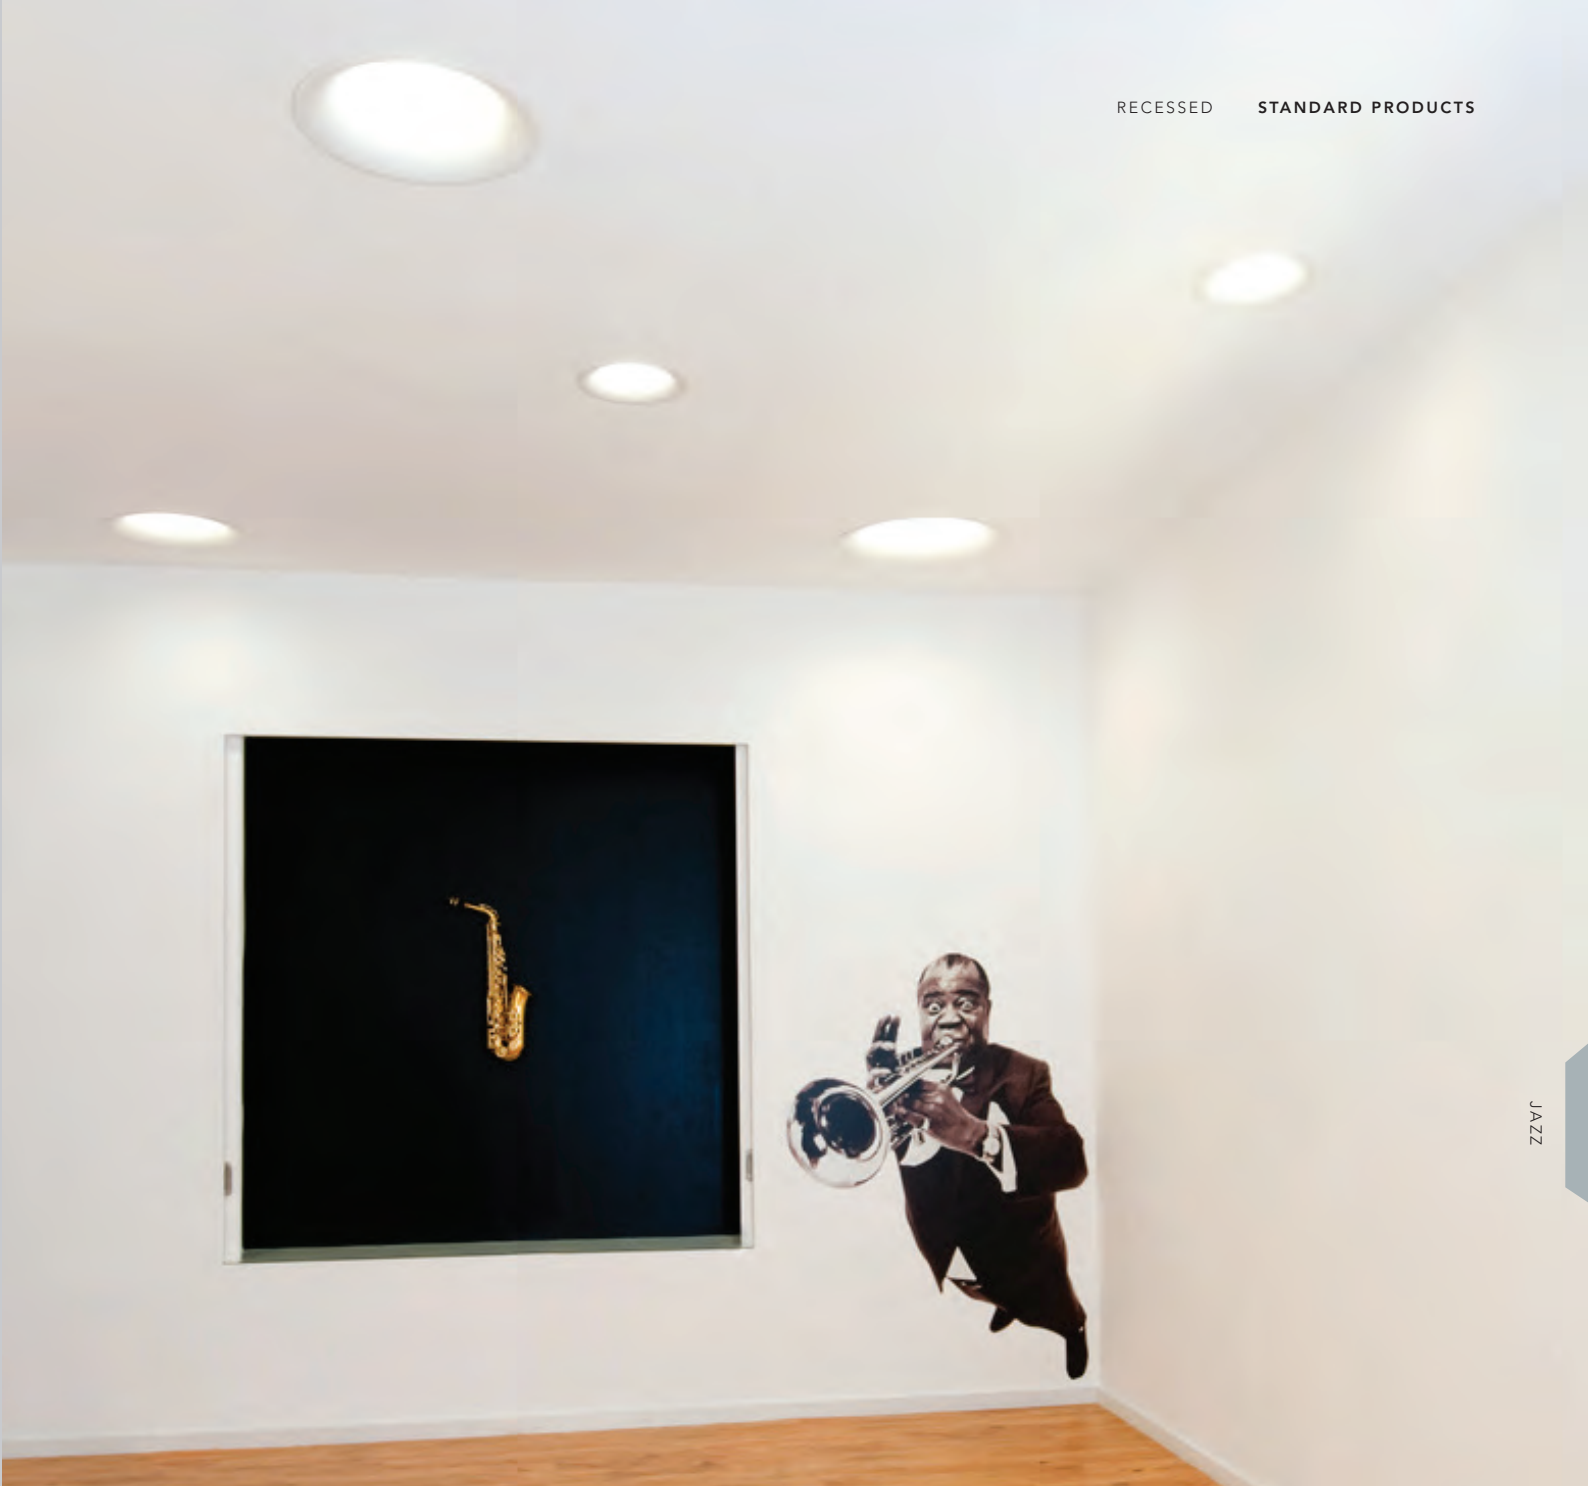

JAZZ

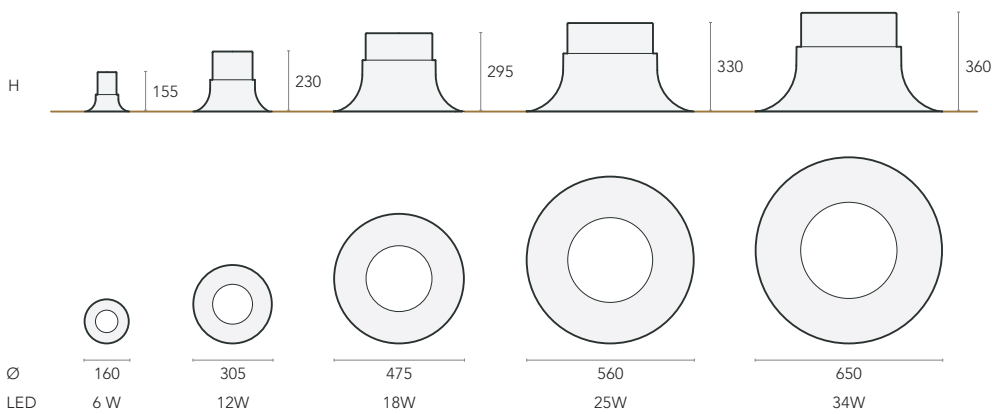

JAZZ

Blends into the room for architectural purity.

Ceiling recessed-mounted luminaire characterized by its shape and finish, which make it unobtrusive as well as bold and able to differentiate the space in which it is placed. The JAZZ offers a lighting solution suitable for integration with minimal visual impact into any contemporary environment, while creating relaxed and warm atmospheres for hotels, restaurants and indoor walkthrough areas.

KNIK

DESIGN BY TIAGO DA SILVA DIAS

Skylight lighting system.

Recessed-mounted luminaire that mimics a skylight, providing a pleasant setting which promises to turn any room into a reference area. The minimalist architectural structure enables ceiling integration with minimal visual impact while the rearward LED position avoids glare, providing a greater sense of visual comfort.

O-LIGHT

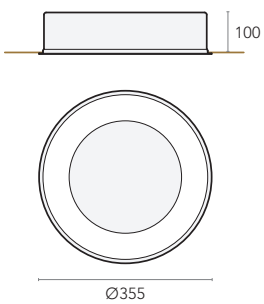

O-LIGHT

Subtle light ring.

Recessed-mounted luminaire with a halo lighting effect around its central disc, for a stylish and contemporary look. The O-LIGHT subtle design easily integrates into the architecture, enabling it to blend into the room even when not in use. It uses the latest LED technology to create a glow of light around the central disc, for a beautiful lighting effect that is also an effective lighting solution. With an appeal that won't go unnoticed, O-LIGHT is ideal for the home or hospitality sector.

TREE

DESIGN BY CARLOS CASTANHEIRA

Lighting that blends into the urban environment.

Slender, minimalist design bollard with asymmetric light distribution designed to ensure high visual comfort, while integrating brilliantly with its surroundings. The light from these luminaires is directed downwards and fully shielded above the horizontal providing a comfortable visual guidance suitable for walkways and entrance areas in garden and residential areas. The highest degree of illuminance is achieved in the immediate vicinity of the luminaire. The TREE bollard is available in textured brown standard finishing that can be customised according to your needs and requests.

LUNA

LUNA

Organic interpretation.

Bold concept that integrates the nobility of the wood pole with the solid presence of the stainless steel inserts, in a bollard that is robust, simple and organic. Lighting system designed for use with LED light sources to ensure high visual comfort and pleasantly uniform light effects. The LUNA bollard is a minimalist design with 360° light emission, providing a comfortable visual guidance suitable for lighting promenades and footpaths in residential areas. These durable and attractively designed luminaires can be used individually or in groups around buildings.

TEMPLUS

Heritage lighting, modern performance.

Inspired by urban lanterns of the 19th Century, the TEMPLUS collection pays homage to a more historical than modern concept design. This lanterns were developed to re-create the appearance and effect of the traditional gaslight lanterns, updated with LED technology to meet the demands of modern lighting performance - improved light distribution, reduced upwards light emission, reliability and high energy efficiency - while maintaining a nostalgic look. The TEMPLUS lanterns are stylish luminaires which impress by their high-quality materials and craftsmanship, combined with modern lighting technology.

VERSIONS

SIGNAGE

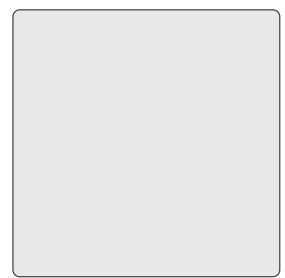

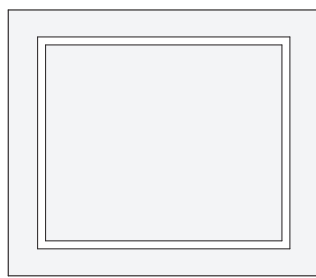

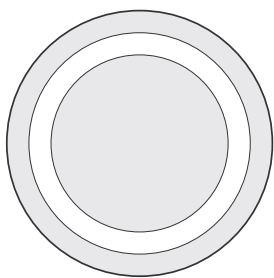

Signage personalized to your needs.

Illuminated signage signs are essential for every commercial building, helping to guide staff, visitors and customers. The presented models are backlit edge-lit signs that work well in any application that requires an elegant architectural signage system.

The bespoke nature of the illuminated signage allows the designer the opportunity to personalise it to sit in fully with their overall design and can feature any font, colour, pattern or logo to suit client's style or the graphic design of the hotel. Those also have the added benefit of working as a subtle secondary lighting source, softly illuminating the wall and defining the corridor space.
